

Amid all the talk about leadership, the best thing that the world is witnessing today, is there's been an exemplary rise globally, in the gender diversity across the entrepreneurial and executive leadership positions in the business and corporate world. And, that needs to be celebrated. Be it any industry or sector, women breaking the shackles of social structures have made significant strides, playing a prominent role in providing efficient, innovative, and generative business ideas for the company, and leading enterprises such that it emanates a powerful workforce and fosters sustainable business growth.

A brigade of Indian women CEOs, MDs, and Board of Directors have been inspiring generations of women to dream big and believe in themselves. Be it Leena Nair, CEO of Chanel, Priya Lakhani OBE, the Founder & CEO of CENTURY Tech, or others, a long list of Indian women today, are leading global companies as CEOs, MDs, CTOs,

CHROS, and showing the entire world that women are equally capable of calling the shots. Fully leveraging their expertise across product strategy, marketing, talent acquisition, risk management, business development, and other leadership areas, they are driving growth for their companies, helping it in developing solutions & services that promote organizational inclusivity across industries, worldwide.
